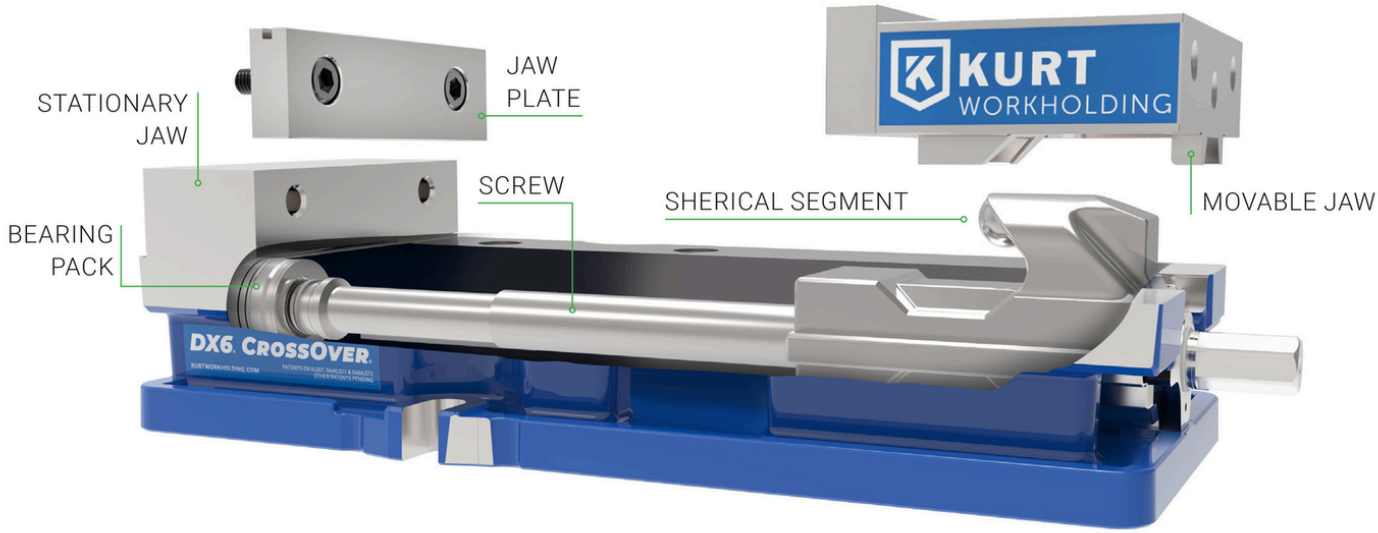
Kurt DX6 CrossOver®

Item No.: MA-BER-HT80DX6

Sale Price: $1125.00 While Quantities Last



6” Vise with 9.0” Opening

The Best D-Series Vise Kurt® Workholding Has Ever Produced!

Combining all the great features of the world-renowned Kurt D688 and 3600V vises, along with new state-of-the-art workholding features, Kurt® Workholding’s revolutionary DX6® CrossOver® vise achieves new levels in precision and performance where flatness and parallelism are important. Featuring a cast on stationary allowing for less deflection and more stability of the vise body during clamping.

By every measure, this is a better vise than Kurt® Workholding’s D688. The DX6 CrossOver vise features the same bed height and keyway to the stationary jaw face as the D688, a redesigned nut with lighter weight, and a new brush seal design. The bearing pack is larger, stronger, and more durable than Kurt® Workholding’s other designs, and their proprietary AngLock® spherical segment creates all-directional alignment and reduces jaw lift for improved performance. Kurt® Workholding has moved to sine keys for mounting ease and accuracy.
