Use this system and you will accelerate your workday!

Even the smallest changes in your daily routines will help you get jobs done faster and more easily. The COMBICLICK® system is a great example:

COOL: No final touch-ups thanks to an innovative cooling effect that prevents damage from overheating.

QUICK: Fast results thanks to powerful abrasives and full-surface tool application.

COMBICLICK®: Shorter tool change times thanks to innovative one-click clamping system and broad range of products.

Find out how your day will breeze by – try it out for yourself!

COOL. QUICK. COMBICLICK®. – A system that gets it done!

One of many satisfied users,
Workshop Manager Jörg Hörter from Werhand in Neuwied,
tells us how he managed to successfully reorganize his grinding jobs with COMBICLICK:

“Back then, we usually began machining with the grinding wheel. Next, we removed the grinding wheel from the angle grinder and clamped on a flap disc. Then we removed the flap disc and put on a Velcro backing pad. Next, there’d be two passes with non-woven wheels of different grit size. Today, we clamp the COMBICLICK® backing pad to the angle grinder, use the CO ceramic oxide grain fibre disc in grit size 120, and then the non-woven disc – without having to remove the COMBICLICK® backing pad. Done.

When someone asks me what COMBICLICK® tools can be used for, I always say “for anything”, because the system covers all work from coarse grinding to polishing. What with all of this and because the grinding discs really get the work done, we’re saving material, machining steps, and time. And the machining quality is excellent. Less really is more this time!”

Improve your grinding work with COMBICLICK®!

Coarse grinding with maximum material removal or fine grinding to prepare high-gloss polishing; get our limited COMBICLICK® promo sets at unbeatable bargain prices and explore this versatile tool system for yourself!

The sets each contain a matched selection of the most common versions.

All the benefits to you at a glance:

- Really easy and convenient to use.
- Extremely quick and easy tool changes to reduce process costs.
- Substantially lower thermal loads on tool and workpiece.
- Scratches from protruding clamping elements are a thing of the past, abrasive medium is used really effectively.

PFERDVALUE:

PFERDERGONOMICS® recommends COMBICLICK® as an innovative product solution to sustainably reduce vibration, noise and dust levels produced by discs, and to improve working comfort.

PFERDEFFICIENCY® recommends COMBICLICK® for long, fatigue-free and resource-saving work in the shortest possible time. The patented quick-mounting system reduces disc changes and setup times.

See all the details about our innovative COMBICLICK® system and the whole range of COMBICLICK® tools here:

Extremely fast and easy disc changing reduces process costs.

Very good cooling of the disc and workpiece.

With COMBICLICK®, scratches caused by protruding clamping parts are prevented and very high utilization of the available abrasive is attained.

COMBICLICK® promo set GRINDING

The COMBICLICK® promo sets offer a matched selection of the most common versions for coarse grinding work such as weld seam finishing on steel materials.

The sets contain eight COMBICLICK® fibre discs in four different versions along with a COMBICLICK® backing pad specially designed for the system.

Contents:

COMBICLICK® fibre discs:

- 2x 5" CO 60 (EDP 40707)
- 2x 5" CO-COOL 80 (EDP 40736)
- 2x 5" VICTOGRAIN 36 (EDP 40372)
- 2x 5" VICTOGRAIN-COOL 36 (EDP 40381)

COMBICLICK® backing pad:

- CC-GT 5" 5/8-11 (EDP 69472)

PFERDVALUE:

Dia. [Inch]	Thread	EDP		Designation	Promotional price per set* plus tax
5	5/8-11	42975	1	CC-SET 5" 5/8-11 G	\$73.35

COMBICLICK® promo set FINISHING

The COMBICLICK® promo sets offer a matched selection of the most common versions for graduated fine grinding work on tough materials with poor thermal conduction such as stainless steel (INOX).

The sets contain four COMBICLICK® fibre discs in two different versions, two different non-woven discs, and a COMBICLICK® backing pad specially designed for the system.

Contents:

COMBICLICK® fibre discs:

- 2x 5" CO-COOL 120 (EDP 40731)
 - 2x 5" A-COOL 220 (EDP 40308)
- COMBICLICK® non-woven discs:
- 1x Soft 5" A 180 (EDP 48132)
 - 1x Unitized 5" SiC F W (EDP 48150)

COMBICLICK® backing pad:

- CC-GT 5" 4/8-11 (EDP 69470)

PFERDVALUE:

Dia. [Inch]	Thread	EDP		Designation	Promotional price per set* plus tax
5	5/8-11	42985	1	CC-SET 5" 5/8-11 F	\$73.35
